

AN ABSTRACT TO BE SUBMITTED FOR CONSIDERATION TO THE
8th INTERNATIONAL TEMPERATURE SYMPOSIUM

First Author¹, Second Author², Third Author³

¹First Affiliation, City, State, Country

²Second Affiliation, City, State, Country

³Third Affiliation, City, State, Country

The abstract should be at least 200 words, but not exceeding one page A4 (21x29.7 cm). Use font type Times New Roman 12 points, with single spaced lines. The page margins should be: 5 cm for top margins; 3 cm for right, left, and bottom margins. The title of the paper should appear in capital letters followed by one blank line, then followed by the authors name(s), and affiliation(s), all centered at the top of the page. Start the text after two blank lines. Paragraphs are not indented, but separated by one blank line.

The abstracts are to be submitted by 10 December 2001. The contents of the abstracts will be the basis for acceptance of the paper for presentation at the 8th Symposium on Temperature in 2002. Authors should send their proposal in Microsoft Word '97 format as an attachment of an E-mail to: ts2002@nist.gov or by fax to: 1-301-548-0206. The abstracts will be reviewed by the members of the International Program Committee. Authors will be informed about the acceptance of their paper. Post-deadline submissions cannot be guaranteed a review or a place in the Symposium program. Authors needing special consideration should contact the Program Chair.

The deadline for submission of the full paper is 30 April 2002. The length of papers is limited to six pages. These papers will receive technical and editorial review prior to final acceptance. Authors should understand that paper acceptance implies willingness to pay the speaker registration fee and present the paper at the conference. For co-authored papers, a minimum of one author must register for the conference. The deadline for submission of the final camera-ready manuscript is September 20, 2002,

The Symposium will take place in Chicago, Illinois, USA, October 21-24, 2002. Technical sessions will be held in McCormick Place South. The Symposium will be held in conjunction with ISA 2002, a comprehensive exposition of advanced measurement and control technology. The Symposium proceedings will be available as hard-bound volumes, similar to those of past symposia^[1], published by the American Institute of Physics (AIP).
